The St. Armand Ventures Experience: What People are Saying Guests consider it an honor to receive an invitation to these events.

When I was with Billboard Magazine we worked with Tam quite a bit. In terms of both business development and company exposure, the return on investment for Billboard Magazine was tremendous. This type of event does not exist anyplace else. I had access to a multitude of various industries most important people. I left Tam's event with a pocket full of business cards, new friends and the ultimate VIP networking experience. Tam is one of the smartest and most dynamic business professionals we have ever done business with.

*Matthew Carona, COO
VNUE Inc.*

I have attended several networking events in my professional life but none have been as sophisticated or chic as the events produced by Tam St. Armand. Whether in a hip downtown lounge or a splashy event at an uptown hotel, Tam mixes business and pleasure perfectly. She carefully curates a guest list to include a cross section of professionals ranging from the arts to finance and while guests' backgrounds and industries vary, the common thread is their entrepreneurial bent. Her events create a forum for high-powered, like-minded professionals to come together and she provides the opportunity for connections to be made and relationships cultivated. I have made extremely valuable business connections at Tam's events, and I've walked away with more than just a few wonderful friends, business relationships and advocates!

*Ellen Christian-Reid, CEO
Montepicaza USA*

I have found that Tam's events are so successful for me that I stopped attending any other networking events. I just canceled everything because Tam is the most effective facilitator of business I have ever met. People could just pay Tam to introduce them and then they could fire their entire sales team. You are a genius Tam."

*Dr. Simon Mills
Writer, Entrepreneur, Technologist*

I first met Tam ten years ago when a mutual friend connected us for an event she organized for Miami Art Basel. I loaded 12 huge sculptures that I had just completed into a truck and attached trailer and headed south to Miami from NY. Something I couldn't quite put my finger on told me that this effort was going to pay off for me. Well it did. I sold every piece at that first Tam event, half of them to the chairman of Fendi. Because of that connection, I now have my first sofa design represented by Fendi Casa worldwide. I have partnered with Tam for four of her events over the years. She is magical. Her events are magical, unique, inspiring and gold. She tirelessly forges faithful, long-term bonds with both creatives and business minds. If you are fortunate enough to get the opportunity to be part of Tam's universe, quite simply, you win.

*Bret Reilly
Artist, Musician, Author*

Tam is without any doubt one of the great connectors! Her events are always thought provoking and well executed. I look forward to meeting her next group of "extraordinary people." I also look forward to great conversations as well as new and exciting opportunities.

Attending one of Tam's parties is like walking into one of your favorite issues of *Vanity Fair*: *there's something for everyone*. Great conversations are breaking-out everywhere because Tam's hand-picked crowd comes ready to talk. Politics, art, commerce, science... and, yes, even a little schmoozing (the good kind). At the end of the last party I attended, I left with a passel of business cards and easily two weeks' worth of great lunch dates..."

I have been to nearly all of Tam's networking events over the past ten years because they are simply the BEST. Whether it is the people, speakers, locations, food, drinks, entertainment, or anything else - it is always a fantastic event that will not be forgotten any time soon. The main reason why these events are amazing is that Tam is amazing - intelligent, funny, thoughtful, unpretentious, full of energy and she truly wants to bring dynamic people together so that great things can happen.

*John-Paul Lee, CEO
Tavalon Tea*

The St. Armand Ventures Experience: More Accolades

I have attended a number of St. Armand Ventures events in recent years, and I have to say that they are some of the most valuable and high impact gatherings that I have experienced. That comes against the backdrop of my attending global leadership gatherings around the world, including TED, Forbes and the World Economic Forum, amongst others. This is due to the fact that Tam St. Armand, the curator of these events, has gathered an extraordinary network of leaders whom have shared values and interests, while still having significant diversity. So it is never hard for people to quickly fall into meaningful discussion with people that they have just met; and as a result, new friendships and collaboration amongst attendees is quite commonplace.

I have travelled from great distances just to attend Tam's events, and will continue to do so in the future.

*Chris Traub, Chairman
SES Group*

Sometimes you go to a networking event and come home exhausted. Sometimes you come home excited, full of new ideas and eager to continue conversations with the people you've met. The St. Armand Ventures Experience always leaves me energized and ready for more. Weaving together people, practical knowledge and dreams, St. Armand Ventures Experiences are nothing short of magical. Tam is truly a master at this rare – but essential – art.

*Steven Skyles-Mulligan, Executive Director

*Al Cattabiani, President & Co-Founder

Because of her background she knows a lot of very powerful people in all aspects of business and in the global marketplaces. She loves connecting people and it shows in the results. Events this great are one in a million. We've all had the experience, and feeling, that networking can be hit or miss. What's often missing is an organizer that pays great attention to various elements of the event itself (location, refreshments, presentations, etc.) and the people in attendance. Tam herself is not only a super intelligent, hard-working, accomplished multiple entrepreneur, she happens to really excel at bringing together a unique group of talented, motivated, successful people, and knows how to foster just the right mix of comfort, positive energy, and engagement to make for some excellent new connections and an all-around great time.
